

# VOICES FOR JUST CLIMATE ACTION INDONESIA

## Factsheet local partners

Voices for Just Climate Action (VCA) started in 2020 as an alliance with four Southern civil society organizations (CSOs) and two Global CSOs. VCA is now a network that connects almost 200 organizations across seven countries - Tunisia, Kenya, Zambia, Brazil, Bolivia, Paraguay, and Indonesia - at local, regional, and global levels.

## LOCAL PARTNERS

In Indonesia, the 13 VCA local partners employed their own approach to collaborate with their respective local partners to give even more communities a voice. Through this mechanism VCA-Indonesia has connected to **27 local partners** spread across 5 sites: DIY Yogyakarta, DKI Jakarta, East Nusa Tenggara Papua, West Papua. Among them a diversity of civil society organizations and grassroots organizations: some youth led, other Indigenous led or woman led. Apart from these collaborations VCA Indonesia managed to establish allies with other stakeholders such as **university** and **non-conventional actors** such as, **arts and cultural organizations**, **religious leaders**, in efforts to strengthening the amplification of marginalized community for just climate action.
