

VOICES FOR JUST CLIMATE ACTION KENYA

Factsheet local partners

Voices for Just Climate Action (VCA) started in 2020 as an alliance with four Southern civil society organizations (CSOs) and two Global CSOs. VCA is now a network that connects almost 200 organizations across seven countries - Tunisia, Kenya, Zambia, Brazil, Bolivia, Paraguay, and Indonesia - at local, regional, and global levels.

LOCAL PARTNERS

In Kenya, the **24 local partners** of VCA carry out interventions in the following Kenya counties: Kwale, Nakuru, Narok, Samburu and Turkana. Among them a diversity of civil society organizations and grassroots organizations: some youth led, other Indigenous led or woman led. Each local partner employed their own approach to collaborate with their respective local partners. Through this mechanism, even more local partners were given a voice. For example, in Kenya VCA has been working with **563 climate Action Groups** in Kisumu, Nairobi, with a total membership of **10,134 persons**. These groups are primarily **engaged in climate actions**, including river and forest rehabilitation, waste management and recycling, eco schools, urban farming, and arts.
