

# VOICES FOR JUST CLIMATE ACTION ZAMBIA

## Factsheet local partners

Voices for Just Climate Action (VCA) started in 2020 as an alliance with four Southern civil society organizations (CSOs) and two Global CSOs. VCA is now a network that connects almost 200 organizations across seven countries - Tunisia, Kenya, Zambia, Brazil, Bolivia, Paraguay, and Indonesia - at local, regional, and global levels.

## LOCAL PARTNERS ZAMBIA

In Zambia, VCA has **16 local partners** spread across ten districts in Lusaka and Southern Province namely, Chikankanta, Mazabuka, Itezhi Tezhi, Siavonga in Southern Province and Chirundu, Chongwe, Kafue, Lusaka, Rufunsa and Luangwa Districts. Among them a diversity of civil society organizations and grassroots organizations: some youth led, other woman led. These local partners employed their own approach to collaborate with their respective local partners. Thus, they provide a broader ecosystem of CSOs that connect through the network. For example, VCA Zambia partnered with the Institute of Architects and People in Need, two member organizations of the Governance cluster under the **'Gender Is My Agenda Campaign'** (GIMAC) of the **Pan African Climate Justice Alliance** (PACJA) with **Oxfam**. The partnerships are advocating energy poverty, gender, food security and resilient infrastructure development.
